Jahan Zaib Asif

Full Stack Web Developer

I am a skilled full-stack web developer proficient in Node.js, React, MySQL, and MongoDB. With expertise in creating dynamic and responsive websites, I excel in implementing various functionalities, including payment gateways. My versatile skill set allows me to work on a wide range of projects, ensuring seamless integration and optimal user experiences. Committed to staying current with industry trends, I bring innovation and efficiency to every web development task.

Education

BS IT

From September 2019 to April 2023 **Punjab University** Lahore, Computer Science graduate with a strong foundation in algorithms, data structures, and software development principles. Equipped with practical experience in programming languages such as Javascript, PHP, and C++, as well as familiarity with web development technologies. Proven ability to analyze complex problems and implement effective solutions, coupled with excellent communication and collaboration skills. Passionate about leveraging technology to drive innovation and solve real-world challenges.

Advance Web Application

From September 2022 to March 2023 **Optimum Tech** Faisalabad, PB, Pakistan Completed a 6-month Advanced Web Application course at NAVTTC in Optimum Tech Software House, Faisalabad, enhancing skills in cutting-edge web development technologies for comprehensive expertise in the field.

Work experience

Full Stack Developer

Since November 2023 **iSoftstudious** Johor Town Lahore As a Full Stack Developer at iSoftStudious, I specialize in Node.js and diverse technologies, contributing to end-to-end development and fostering innovation in web applications. With hands-on experience across multiple projects, I've spearheaded the creation of various solutions, including an ongoing API development for a site akin to [Airbnb.com](https://www.airbnb.com). Additionally, I've implemented payment integration using Stripe.js and integrated socket.io for real-time chat in an e-commerce website.

Nodejs developer

From March 2023 to October 2023 **Solution Corridor** Hafizabad

As a Node.js developer, I completed an internship at Solution Corridor Software House, crafting dynamic, responsive websites with dashboards. Proficient in leveraging Node.js capabilities, I have successfully delivered numerous projects, showcasing my expertise in web development. I worked on two projects: creating the API of [greatedubai.com](https://www.greatedubai.com) and developing a website with a dashboard solutioncorridor.com.

Personal Project

Portfolio and Social Website

From December 2023 to February 2024 . .

Full Stack Developer adept at crafting social networking platforms and portfolio websites using Node.js, Express, React, and MongoDB. Committed to delivering seamless user experiences and innovative features. Passionate about leveraging modern technologies to create impactful solutions.

News Website

From June 2023 to August 2023 . .

Experienced PHP Laravel developer adept at crafting dynamic news websites and intuitive dashboards. Proficient in leveraging Laravel's powerful features to develop robust backend systems and user-friendly interfaces. Passionate about delivering high-quality solutions that meet the needs of both publishers and readers, ensuring a seamless and engaging news experience.
